

I understand that LPFM stations may be taking over some FM translator services and may leave me without my KLOVE signal. I feel this would be a great disservice to my community. KLOVE promotes healthy family values and is a positive influence on local families as well as families all across our Country. KLOVE provides a valuable public service by providing our youth an alternative to the violent and sex-oriented music they are bombarded with on many other stations. Please do not allow KLOVE translators to be replaced by LPFMs. Thank you. Shelley Radmer
